

1988 - 2013

25 YEARS

PLAINTREE SYSTEMS INC.

ANNUAL REPORT 2013

Dear shareholders,

In fiscal 2009, we had a fantastic year with \$21 million in sales and close to \$5 million in after tax earnings.

Then in fiscal 2010, the world slow down caught up to us. Aerospace immediately declined 38%, Telecom dried up and our Specialty Structures division saw all of its large potential projects postponed.

This was also the year that we formed a new subsidiary, Arnprior Fire Trucks Corp. ("AFTC"), which like all newly formed enterprises was a drain on funds until it could establish itself.

The resulting lackluster performance dogged the world and us throughout fiscal 2011 and in to fiscal 2012.

It is important to note that throughout this tough period we adhered closely to the Buffett rule " ... and (be) greedy when others are fearful."

Not only did we launch AFTC during this period but we also acquired Summit Aerospace USA Inc. ("Summit"), our first US company, and kept most of our workforce hired so we would not lose critical skills that we had taken years to develop.

Finally, during fiscal 2013, we saw things starting to turn upward. Hypernetics and Triodetic saw the first concrete increases in orders in almost 3 years.

AFTC received orders for 8 high end fire trucks.

Summit increased its sales by 10%.

The result was sales of almost \$14M with an after tax profit of \$373,286.

However, the big news is the current year. So far this year, the Plaintree Group of companies has received almost \$20 million dollars worth of orders of which almost all will be shipped and invoiced in this current year.

This of course bodes well for this year.

Thank you all for your patience,

Yours sincerely

David Watson
CEO

Independent Auditor's Report

To the Shareholders of Plaintree Systems Inc.

We have audited the accompanying consolidated financial statements of Plaintree Systems Inc., which comprise the consolidated statements of financial position as at March 31, 2013 and March 31, 2012 and the consolidated statements of comprehensive income (loss), the consolidated statements of cash flows and the consolidated statements of changes in equity for the years then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Independent Auditor's Report (Continued)

Auditor's Responsibility (Continued)

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Plaintree Systems Inc. as at March 31, 2013 and March 31, 2012 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Notes to the Consolidated Financial Statements

years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

1. DESCRIPTION OF THE BUSINESS

Plaintree Systems Inc. ("Plaintree" or the "Company") was incorporated in Canada under the Canada Business Corporation Act and is publicly traded on the CNSX under the stock symbol "NPT". The Company operates an Electronics division (the Hypernetics business, the free space optics business and Summit Aerospace USA Inc. business) and a Specialty Structures division (the Triodetic business and Arnprior Fire Trucks Corp.). Plaintree was historically a designer and manufacturer of wireless connections transmitting data on beams of light versus conventional radio frequency, commonly referred to as free space optics ("FSO"). The Hypernetics business manufactures avionic components for various applications including aircraft antiskid braking, aircraft instrument indicators, solenoids and permanent magnet alternators. The Triodetic business is a design/build manufacturer of steel, aluminium and stainless steel specialty structures such as commercial domes, free form structures, barrel vaults, space frames and industrial dome coverings. On February 6, 2012, Plaintree purchased the assets of Summit Tool Corporation, located in Pocono Summit, Pennsylvania. This company continued in its existing location as Summit Aerospace USA Inc. a wholly-owned subsidiary of Plaintree and specializes in the high end machining of super-alloys for the aircraft and helicopter markets. The address of the Company's registered office and principal place of business is 10 Didak Drive, Arnprior, Ontario.

2. BASIS OF PRESENTATION

(a) Statement of Compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and were approved for issue by the Board of Directors on July 11, 2013.

(b) Basis of Measurement

These consolidated financial statements have been prepared on an historical cost basis except for share-based compensation and the asset held for sale, which are both measured at fair value. Historical cost is generally based upon the fair value of the consideration given in exchange for assets.

(c) Basis of Consolidation

The consolidated financial statements include the accounts of Plaintree Systems Inc. and its wholly-owned subsidiaries Summit Aerospace USA Inc. and Triodetic Inc. (U.S. companies) and Arnprior Fire Trucks Inc. (Canadian company). Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries align with the policies adopted by the Company. All inter-company transactions have been eliminated.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies include the following:

Inventories

Inventories are valued using a weighted average cost formula and are stated at the lower of cost and net realizable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are allocated to the weighted average cost of inventory by the method most appropriate to the particular class of inventory. Net realizable value for finished goods and work in process represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale and net realizable value for raw materials is based on replacement cost. Inventory write downs are provided for if inventory has not moved in a year unless the Company has orders or a realistic expectation of orders for those parts. Inventory reversals are recorded when inventory previously written off is sold.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment for losses. When parts of material items of property, plant and equipment have significantly different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Depreciation is recognized so as to write off the cost of assets less their residual values over their useful lives using the straight-line method as follows:

Building		20 years
Leasehold improvements	Lesser of useful life and	10 years
Factory equipment		10 years
Computer equipment		3 years
Office equipment and furniture		10 years
Vehicles		4 years

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible assets

The Company's intangible assets consist of a customer relationship, a non-competition agreement and software. Software is stated at cost less accumulated depreciation and accumulated impairment for losses. The Company uses the income approach to determine the fair value of its acquired customer relationship and non-competition agreement intangible assets. This approach is a valuation technique that calculates the fair value of an intangible asset based on the cash flows that an asset can be expected to generate over its remaining useful life. These assets are capitalized and are amortized to operations over their estimated useful lives from the date that they are acquired and available for use, since this most closely reflects the expected usage and consumption patterns related to the future economic benefits embodied in the assets. The Company considers the length of time over which it expects to earn or recover the present value of the assets. Depreciation is recognized so as to write off the cost of assets over their useful lives using the straight-line method as follows:

Software	2 years
Customer relationship	10 years
Non-competition agreement	6.5 years

Impairment of assets

Long-lived assets, including property, plant and equipment and intangible assets are reviewed for impairment at each statement of financial position date or whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds its recoverable amount. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the cash-generating unit, or "CGU"). The recoverable amount of an asset or a CGU is the higher of its fair value, less costs to sell, and its value in use. If the carrying amount of an asset exceeds its recoverable amount, an impairment charge is recognized immediately in profit or loss by the amount by which the carrying amount of the asset exceeds the recoverable amount. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the lesser of the revised estimate of recoverable amount, and the carrying amount that would have been recorded had no impairment loss been recognized previously.

Revenue recognition

Revenue from product sales is recorded on shipment when all significant contractual obligations have been satisfied provided evidence of an arrangement exists, the price to the customer is fixed and determinable and collection is probable.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Revenue on fixed-price contracts is recognized based on the estimated percentage-of-completion of services rendered that reflects the extent of work accomplished. Revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

Management regularly reviews underlying estimates of project profitability; revisions to estimates are reflected in the statement of income in the period in which the facts that give rise to the revision become known. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Contract losses are measured as the amount by which the estimated costs of the contract exceed the estimated total revenue from the contract.

Progress billings are recorded as deferred revenue to the extent that the billings exceed revenue recognized to date. Unbilled revenue is recorded to the extent that revenue has been recognized, but not yet billed to the customer.

In addition, a provision for potential warranty claims is recorded at the time of sale, based on warranty terms and prior claims experience. Extended warranty contracts are sold separately from the product and the associated revenue is recognized over the term of the agreement.

Functional currency

The Canadian dollar is the functional currency of the parent company and its subsidiaries.

Monetary assets and liabilities, which are denominated in foreign currencies, are translated to the entity's functional currency at period end exchange rates, and transactions included in the statements of comprehensive income (loss) are translated at average rates prevailing during the period. Exchange gains and losses resulting from the translation of these amounts are included in the statement of operations.

The accounts of the Company's wholly-owned U.S. subsidiaries, which have Canadian dollar functional currencies, have been translated into Canadian dollars using the exchange rates at period's end for monetary items and at exchange rates at the transaction date for non-monetary items measured at historical costs.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock option plans

The Company measures equity settled stock options granted based on their fair value at the grant date and recognizes compensation expense over the vesting period. Expected forfeitures are estimated at the date of grant and, subsequently, adjusted if further information indicates actual forfeitures may vary from the original estimate. The impact of the revision of the original estimate is recognized in net earnings. Consideration paid by employees on the exercise of stock options is recorded as share capital and the related share-based payments are transferred from contributed surplus to share capital.

Investment tax credits

Investment tax credits are recorded as a reduction of the related expense or cost of the asset acquired. The benefits are recognized when the Company has complied with the terms and conditions of the approved grant program or applicable tax legislation.

Research and development expenditures

Current research costs are expensed as incurred while expenditures for research and development equipment, net of related investment tax credits, are capitalized. Development costs are deferred and amortized when the criteria for deferral under IFRS are met, or otherwise, are expensed as incurred. To date, no such costs have been capitalized.

Non-current assets held for sale

Non-current assets that are expected to be recovered primarily through sale rather than through continuing use are classified as held for sale. Immediately before classification as held for sale, the assets are remeasured in accordance with the Company's accounting policies. Thereafter generally the assets are measured at the lower of their carrying amount and fair value less costs to sell. Impairment losses on initial classification as held for sale and subsequent gains or losses on remeasurement are recognized in profit or loss. Gains are not recognized in excess of any cumulative impairment loss.

Critical accounting estimates and judgements

The preparation of the consolidated financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Critical accounting estimates and judgements (Continued)

Revenue recognition

Application of the accounting principles related to measurement and recognition of revenue requires the Company to make judgments and estimates.

Revenue for fixed price contracts based on the estimated percentage-of-completion of services rendered reflects management's estimates of the percentage-of-completion at each period-end. This method requires management to estimate total costs and profits over the entire term of the contract.

Purchase price allocation

During fiscal 2012, the Company acquired various assets from Summit Tool. As a result of this acquisition, management was required to estimate the fair values of each identifiable asset and liability acquired through the acquisition. The fair value of the equipment was estimated based on appraisal and valuation information and the fair values of the intangibles were valued using the excess earnings method under the income approach.

Useful lives of property, plant and equipment and intangible assets

Management determines the estimated useful lives of its property, plant and equipment based on historical experience of the actual lives of property, plant and equipment of similar nature and functions and reviews these estimates at the end of each reporting period. The useful lives of intangible assets are based on management's best estimate of the expected life of the economic benefits that will be derived from the assets.

Impairment of trade receivables

Management determines the estimated recoverability of trade receivables based on the evaluation and aging of trade receivables, including the current creditworthiness and the past collection history of the customers and reviews these estimates at the end of each reporting period. The Company maintains an allowance for doubtful accounts to provide for impairment of trade receivables.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Critical accounting estimates and judgements (Continued)

Inventory obsolescence

Management reviews the condition of inventories at the end of each reporting period and recognises a provision for slow-moving and obsolete items of inventory when they are no longer suitable for use or sale. Management's estimate of the net realizable value of such inventories is based primarily on sales prices in the forward order book and current market conditions.

Assets held for sale

Management determines the estimated fair value of the assets held for sale based on, among other things, the listing price and comparable sales in the area.

Functional currency

Revenue contracts are priced in a variety of currencies whereas the cost structure inputs are primarily in Canadian dollars. Secondary indicators of functional currency, including financing and cash holdings are primarily in Canadian dollars. As the primary indicators of functional currency do not clearly indicate a specific currency, but the secondary indicators are primarily Canadian, the indicators as a whole have been judged to indicate the Canadian dollar is the functional currency of the parent company and its subsidiaries.

Income taxes

The Company's deferred income tax assets and liabilities are recognized for the future tax consequences attributable to tax loss carryforwards and to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases. Deferred income tax assets and liabilities are measured using tax rates that have been enacted or substantively enacted applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change of statutory tax rates is recognized in income in the period of enactment or substantive enactment. Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary difference can be utilized.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings per share

Earnings per share has been calculated on the basis of net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the period. Income attributable to common shareholders is equal to net income less the dividends accumulated on the preferred shares. Diluted earnings per common share is calculated by dividing the applicable net income attributable to common shareholders by the sum of the weighted average number of common shares outstanding and all additional common shares that would have been outstanding if potentially dilutive common shares had been issued during the period. The Company uses the treasury stock method in determining the denominator for earnings per share. Under this method it is assumed that the proceeds from the exercise of options are used to repurchase common shares at the weighted average market price of the shares for the period.

Financial instruments

All financial instruments are initially recognized at fair value including transaction costs, except those at fair value through profit or loss ("FVTPL") for which transaction costs are expensed when incurred.

Available-for-sale

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale, or that are not classified as loans and receivables, held-to-maturity or held-for-trading. Except as mentioned below, available-for-sale financial assets are carried at fair value with unrealized gains and losses included in other comprehensive income until realized when the cumulative gain or loss is transferred to other income.

Available-for-sale financial assets that do not have quoted market prices in an active market are recorded at cost.

Interest on interest-bearing available-for-sale financial assets is calculated using the effective interest rate method.

Loans and receivables

Loans and receivables are subsequently accounted for at amortized cost using the effective interest rate method.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Other liabilities

Other liabilities are subsequently recorded at amortized cost using the effective interest method and include all financial liabilities, other than derivative instruments.

Fair value through profit or loss

Financial asset or liability that is held-for-trading measured at fair value each period with gains and losses through income.

The Company classifies its financial assets and liabilities depending on the purpose for which the financial instruments were acquired, their characteristics, and management intent as outlined below:

Cash is designated as at FVTPL which is measured at fair value, with changes in fair value being recorded income at each period end.

Trade accounts receivable are classified as loans and receivables and accounts payable and accrued liabilities classified as other financial liabilities and are measured at amortized costs with interest accretion recorded in net income. Due to the short-term nature of these assets and liabilities, the carrying amounts approximate fair value.

All loans, bank loans, bonds and debentures or similar debt are measured at amortized cost with interest accretion recorded in net income.

The Company classifies its fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The accounting standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The inputs fall into three levels that may be used to measure fair value:

Level 1 - Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Fair value through profit or loss (Continued)

Level 3 - Applies to assets or liabilities for which there is no observable market data.

New and revised IFRS in issue but not effective

IFRS 9 Financial Instruments ("IFRS 9")

IFRS 9, *Financial Instruments* ("IFRS 9"), was issued by the International Accounting Standards Board ("IASB") in November 2009 and October 2010 and will replace IAS 39. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Two measurement categories continue to exist to account for financial liabilities in IFRS 9, fair value through profit or loss ("FVTPL") and amortized cost. Financial liabilities held-for-trading are measured at FVTPL, and all other financial liabilities are measured at amortized cost unless the fair value option is applied. The treatment of embedded derivatives under the new standard is consistent with IAS 39 and is applied to financial liabilities and non-derivative hosts not within the scope of the standard. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011)

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011).

IFRS 10 *Consolidated Financial Statements* ("IFRS 10") establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 replaces the consolidation requirements in SIC-12 *Consolidation - Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements*. IFRS 11 *Joint Arrangements* ("IFRS 11") establishes principles for financial reporting by parties to a joint arrangement. IFRS 11 supersedes current IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities - Non-Monetary Contributions by Venturers*. IFRS 12 - *Disclosure of Interests in Other Entities* ("IFRS 12") applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

New and revised IFRS in issue but not effective (Continued)

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under IFRS 7 Financial Instruments: Disclosures will be extended by IFRS 13 to cover all assets and liabilities within its scope.

IFRS 13 is effective for annual periods beginning on or after January 1, 2013, with earlier application permitted.

Amendments to IFRS 7 and IAS 32 Offsetting Financial Assets and Financial Liabilities and the related disclosures

The amendments to IAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realisation and settlement'. The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments to IFRS 7 are effective for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. The disclosures should be provided retrospectively for all comparative periods. However, the amendments to IAS 32 are not effective until annual periods beginning on or after January 1, 2014, with retrospective application required. The Company is evaluating the impact of the amendments on its consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

New and revised IFRS in issue but not effective (Continued)

Amendments to IAS 1 Presentation of items of Other Comprehensive Income

The amendments retain the option to present profit or loss and other comprehensive income either in one continuous statement or in two separate but consecutive statements. Items of other comprehensive income are required to be grouped into those that will and will not be subsequently reclassified to profit or loss. Tax on items of other comprehensive income is required to be allocated on the same basis. The measurement and recognition of items of profit or loss and other comprehensive income are not affected by the amendments. The amendments to IAS 1 are effective for financial years beginning on or after July 1, 2012, with earlier application permitted. The Company is evaluating the impact of the amendments to IAS 1 on its consolidated financial statements.

4. ACQUISITION OF SUMMIT TOOL CORP.

On February 6, 2012, Plaintiff Systems Inc. completed its acquisition of the business and assets of Summit Tool Corporation ("Summit Tool").

The purchase price for the acquisition was US\$3 million with \$1.5 million paid on closing and the balance to be payable in three tranches, all of which are unsecured and non-interest bearing, as follows:

- (i) US\$375,000 paid on August 6, 2012;
- (ii) US\$375,000 paid on February 6, 2013; and
- (ii) US\$750,000 due on August 6, 2013. The remaining US\$750,000 (CDN \$762,000) balance is classified as a current note payable.

The acquisition was considered a business combination to which IFRS3, *Business Combinations* applies.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements

(in Canadian dollars)

4. ACQUISITION OF SUMMIT TOOL CORP. (Continued)

The assets acquired and liabilities recognized at the date of acquisition, based on the US\$3,000,000 consideration are allocated as follows:

<u>Current assets</u>	
Inventory	\$ 19,400
 <u>Non-current assets</u>	
Property, plant and equipment	1,751,400
Customer relationship	1,303,270
Non-competition agreement	10,000
 <u>Current liabilities</u>	
Deferred tax liability recognized on acquisition	<u>(84,070)</u>
 Net assets acquired	 <u>\$ 3,000,000</u>

The Company acquired all of the assets of Summit Tool. In addition, Summit Aerospace Inc. entered into a lease arrangement with Summit Tool to continue to use the company's former premises for a one year period. All of the former employees of Summit Tool have agreed to remain employed in the business with Summit Aerospace Inc.

The newly acquired business continues to be operated in Pennsylvania by Summit Aerospace USA Inc.

5. INVENTORIES

	<u>2013</u>	<u>2012</u>
Raw materials	\$ 373,909	\$ 619,156
Work in process	675,822	791,252
Finished goods	296,603	312,884
	<u>\$ 1,346,334</u>	<u>\$ 1,723,292</u>

The cost of inventories recognized as an expense during the year was \$10,354,760 (2012 - \$9,386,533). The total carrying value of inventory at March 31, 2013 was pledged as security through general security agreements under bank lines of credit and related party liabilities (Notes 8 and 12).

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

5. INVENTORIES

The Company wrote down its inventories by \$202,632 in fiscal 2013 (2012 - \$273,359) to reflect where the carrying amount exceeded net realizable value. An amount of \$151,591 (2012 - \$219,162) in inventories that was previously written off was reversed due to the fact that its net realizable value increased.

6. ASSET HELD FOR SALE

The asset held for sale as of March 31, 2013 and 2012, consist of a manufacturing property owned by the Company that is available for sale. Plaintiff signed a lease on a 135,000 sq. ft. building in Arnprior owned by Tidal Quality Management Corporation, a company owned by Targa Group Inc., the Company's largest shareholder and a company controlled by David Watson, Plaintiff's Chief Executive Officer ("CEO") and subsequently the Company took steps to sell its one remaining building. The asset is recorded at the lower of carrying value and fair value less estimated selling costs. The property has mortgage loans totalling \$531,146 (Note 8) that would need to be satisfied at the time of sale of the property.

7. NOTE RECEIVABLE

On March 28, 2012 the Company sold one of its two manufacturing buildings that were recorded as assets held-for-sale. The building sold for \$470,000. The Company assumed a vendor take-back first mortgage of \$446,509 for a three-year term with interest only payments in the first 12 months, at prime plus 2% per annum. The gain on the sale of \$295,110 was recognized in the 2013 fiscal year.

8. LONG-TERM DEBT (Continued)

	<u>2013</u>	<u>2012</u>
Balance carried forward	\$ 3,127,117	\$ 2,759,020
Term non-revolving loan payable in monthly installments of \$3,161, bearing interest at the rate of prime plus 1.25% per annum, maturing September 2018. (Note 6)	<u>158,361</u>	<u>188,877</u>
Current portion	<u>\$ 3,285,478</u>	<u>\$ 2,947,897</u>

Principal repayments required in the next five years and thereafter are as follows:

2014	\$ 1,129,458
2015	996,938
2016	349,458
2017	345,462
2018	151,657
Thereafter	<u>312,506</u>
	<u>\$ 3,285,478</u>

As of March 31, 2013, the Company was in breach of the debt service coverage ratio which was required to be maintained at a minimum of 125% as well as the current assets to current liabilities ratio of 1.25:1. Debt service coverage ratio is determined by dividing earnings before interest, taxes, depreciation and amortization by the annual payments of principal and interest.

As a result of the covenant breaches, the long-term debt has been reclassified to current. The one bank, which carries all the long-term debt, has waived the covenant requirements to April 1, 2014 and has continued to provide funding under the terms of the facility.

9. DUE FROM RELATED PARTY

Due from related party consists of \$1,510,345 (2012 - \$1,284,665) due from Spotton Corporation, a company controlled by Targa Group Inc. ("Targa"). The balance accrues interest at prime plus 2% and is due from the related party on demand. The \$225,680 change in the balance from fiscal 2012 relates to rent of \$42,000 (2012 - \$42,000) and utilities charges, advances and related interest.

12. DUE TO RELATED PARTIES

	<u>2013</u>	<u>2012</u>
Due to senior officers	\$ 3,392,540	\$ 3,062,063
Dividends payable	60,000	60,000
Due to Targa Group Inc., convertible debentures	247,672	247,672
Due to Tidal Quality Management Inc.	322,370	313,621
Due to Targa Group Inc., line of credit	763,070	932,237
Due to Targa Group Inc., demand loan	66,581	66,581
Due to Targa Group Inc., loan interest	134,813	134,813
	<u>4,987,046</u>	<u>4,816,986</u>
Less: current portion	<u>(60,000)</u>	<u>(60,000)</u>
	<u>\$ 4,927,046</u>	<u>\$ 4,756,986</u>

As at March 31, 2013, a balance of \$3,392,540 (\$2,578,846 principal and \$813,694 interest) remained owing to senior officers of the Company. These amounts are classified as long-term as the parties have agreed not to demand repayment before August 2014.

On July 14, 2011, the board of directors of the Company declared a cash dividend of \$10.91405 per Class A preferred share (\$200,000 in the aggregate) payable on July 22, 2011 to the holders of record at the close of business on July 18, 2011. The Class A preferred shares are held by related parties and are entitled to annual cumulative dividends of 8% on the \$1,000 redemption amount of the Class A preferred share. An amount of \$60,000 (2012 - \$60,000) of the dividend remains outstanding as of March 31, 2013 and is included in trade and other payables.

As at March 31, 2013, a balance of \$247,672 (2012 - \$247,672) of the due to related parties is convertible into common shares of the Company at a rate of \$0.0115 at the option of Targa. The balance is classified as long-term as the related party has agreed not to demand payment before August 2014.

Until March 31, 2013, the Company leased facilities from a company controlled by Targa. Lease arrears, including interest of \$147,396 (2012 - \$138,647) owing to this related party, amounted to \$322,370 (2012 - \$313,621). In 2003, this related party entered into a forbearance agreement with the Company whereby the Company agreed to repay the amounts owing. The forbearance agreement is now in default. The party has agreed not to demand repayment before August 2014 and the amount is classified as long-term.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

12. DUE TO RELATED PARTIES (Continued)

The Company has a demand loan of up to \$1,800,000 and a revolving line of credit of up to \$1,000,000 with Targa. Under the loan agreements, all amounts advanced to the Company are payable on demand and bear interest at bank prime plus 2%. The Targa Credit Facility is secured by a security interest granted over the assets of the Company. At March 31, 2013, \$600,000, (2012 - \$800,000) remained outstanding on the line of credit with accumulated interest of \$163,070 (2012 - \$132,237) for a balance of \$763,070 (2012 - \$932,237). The balance on the revolving demand loan of \$66,581 consists of interest only. Targa has agreed that it will not demand repayment before August 2014 and, accordingly, the amounts are classified as long-term.

Accumulated interest in the amount of \$134,812 (2012 - \$134,812), on a loan from Targa remains outstanding as of March 31, 2013. The party has agreed not to demand repayment before August 2014 and, accordingly, the amount is classified as long-term.

13. TRADE AND OTHER PAYABLES

Trade and other payables are comprised of the following:

	<u>2013</u>	<u>2012</u>
Accounts payable	\$ 1,217,898	\$ 555,131
Accrued liabilities	359,917	497,988
Salaries and benefits payable	254,152	284,825
	<u>\$ 1,831,967</u>	<u>\$ 1,337,945</u>

14. SHARE CAPITAL

Authorized

Unlimited number of common shares

Unlimited number of Class A preferred shares

Class A 8% cumulative dividend, calculated on redemption amount, redeemable at the option of the Company at any time at \$1,000 per share plus accrued dividends; liquidation preference of the redemption value plus cumulative dividends (when and if declared) to common shares; non-voting. As at March 31 2013, the accrued and unpaid dividends on the Class A preferred shares were \$6,896,500.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

14. SHARE CAPITAL (Continued)

Issued	
Common shares	12,925,253
Class A Preferred shares	18,325

On July 14, 2011, the Board of Directors of the Company approved a reduction to the stated capital account of \$97,844,650 (the "Stated Capital Reduction Amount"). At the Company's Annual General Meeting held on September 15, 2011, the shareholders of the Company voted in favour of the Stated Capital Reduction Amount. The effect of the reduction was to reduce the stated capital and the accumulated deficit of the Company by the same amount. The accumulated deficit of the Company represents primarily the Company's business prior to the completion of the merger with Hypernetics and Triodetic and is not reflective of the post-merger business of the Company.

Stock option plans

The Company's Stock Option Plan allows the Company to grant options to officers and service providers to a maximum number of 1,200,000.

Options under the stock option plans are issued for a period as determined by the Board of Directors of the Company at the time of grant up to a period of ten years from the date of grant and the exercise price may not be less than the latest closing price of the common shares on the last trading day preceding the date of grant. Eligibility is determined by the Company's Board of Directors and the aggregate number available for issuance to any one person may not exceed 5% of the issued and outstanding common shares.

Activity in the stock option plan is summarized as follows:

	<u>Number of Options</u>	<u>Option Price</u>	<u>Weighted Average Option Price</u>
Options outstanding March 31, 2013 and 2012	560,000	\$0.12	\$0.12

14. SHARE CAPITAL (Continued)

Additional information regarding options outstanding as of March 31, 2013 is as follows:

Options Outstanding and Exercisable			
Exercise Price	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price
\$0.12	560,000	0.4	\$0.12

The stock-based compensation expense of \$NIL (2012 - \$1,621) is included in finance and administration expenses and was determined using the fair value method. This was calculated using a Black-Scholes option pricing model using the following assumptions: expected dividend yield - NIL%; expected volatility - 133%; risk-free interest rate - 3.75%; and expected life - five years.

15. BASIC AND DILUTED EARNINGS PER COMMON SHARE

Net income (loss) attributable to common shares used in the numerator of basic and diluted earnings per share is calculated as follows:

	2013	2012
Net income (loss)	\$ 373,286	\$ (631,833)
Cumulative dividends on preferred shares	(1,466,000)	(1,466,000)
Net loss attributable to common shares (basic and diluted)	\$ (1,092,714)	\$ (2,097,833)
Basic and diluted weighted average shares outstanding	12,925,253	12,925,253

For the years ended March 31, 2013 and 2012, diluted earnings per share equals basic earnings per share due to the anti-dilutive effect of options and convertible instruments.

	2013	2012
Stock options	560,000	560,000
Convertible debentures	229,935	229,935
Total	789,935	789,935

16. BUSINESS SEGMENT INFORMATION

The Company's chief decision maker, the CEO, tracks the Company's operations as two business segments - the design, development, manufacture, marketing and support of electronic products, and the specialty structural products. From time to time, the Company provides management services primarily to related companies. The revenue and cost of sales related to these services are presented in the statement of income. No other expenses or assets are attributable to this segment.

The Company determines the geographic location of revenues based on the location of its customers. All of the Company's assets are primarily located in Canada.

Revenues by division

	<u>2013</u>	<u>2012</u>
Electronics	\$ 6,127,101	\$ 4,072,801
Specialty Structures	7,663,658	8,567,740
	<u>\$ 13,790,759</u>	<u>\$ 12,640,541</u>

Net income (loss) before taxes by division

	<u>2013</u>	<u>2012</u>
Electronics	\$ 1,205,829	\$ 501,121
Specialty Structures	(813,543)	(1,199,093)
	<u>\$ 392,286</u>	<u>\$ (697,972)</u>

Revenues by geographical location

	<u>2013</u>	<u>2012</u>
Canada	\$ 7,100,933	\$ 4,866,112
United States	5,585,664	5,358,416

	<u>\$ 13,087,183</u>	<u>\$ 12,733,225</u>

17. INCOME TAXES

Deferred income taxes reflect the impact of loss carry-forwards and of temporary differences between amounts of assets and liabilities for financial reporting purposes and such amounts as measured by tax laws. The tax effects of temporary differences and loss carry-forwards that gave rise to significant portions of the deferred tax asset, which has not been recognized, is as follows:

	<u>2013</u>	<u>2012</u>
Accounting depreciation in excess of tax	\$ 1,940,000	\$ 1,747,000
Research and development expenses not deducted for tax purposes	5,952,000	5,622,000
Losses available to offset future income taxes	786,000	846,000
	<u>\$ 8,678,000</u>	<u>\$ 8,215,000</u>

The Company has claimed less research and development expenses for income tax purposes than has been reflected in the financial statements. These unclaimed expenses total approximately \$20,755,000 (2012 - \$20,678,000) for Canadian federal and provincial tax purposes. These are available without expiry to reduce future years' taxable income.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

17. INCOME TAXES (Continued)

At March 31, 2013, the Company has approximately \$617,000 (2012 - \$612,000) of investment tax credits, relating primarily to research and development, available to reduce future year's Canadian federal income taxes. These potential benefits expire as follows:

2021	\$ 240,000
2022	344,000
2029	12,000
2030	16,000
2031	5,000
	<hr/>
	\$ 617,000

The provision for income taxes in the statement of comprehensive income (loss) differs from the amount computed by applying the Canadian statutory rate to the income (loss) before income taxes for the following reasons:

	<u>2012</u>	<u>2012</u>
Net income (loss) before income taxes	\$ 392,286	\$ (697,972)
Canadian statutory rate	26.5%	27.79%
Expected income tax expense (recovery)	103,956	(193,978)
Changes in unrealized deferred tax assets	122,695	(60,298)
Changes in future tax rates and provision	(372,848)	152,380
Permanent differences	59,902	152,380
Asset on benefit of current loss of subsidiary not recorded	101,151	36,026
Other	4,144	(269)
	<hr/>	<hr/>
Income tax expense (recovery)	\$ 19,000	\$ (66,139)

The Company has losses available to reduce future years' Canadian federal taxable income totaling approximately \$2,952,000. These potential benefits expire as follows:

2030	\$ 1,340,000
2031	318,000
2032	783,000
2033	508,000
	<hr/>
	\$ 2,952,000

The Company has US losses of approximately \$870,000 which begin to expire in 2030.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

18. GUARANTEES, COMMITMENTS AND CONTINGENCIES

Guarantees

The Company has entered into agreements that contain features which meet the definition of a guarantee. The pronouncements define a guarantee to be a contract that contingently requires the Company to make payments (either in cash, financial instruments, other assets, common shares of the Company or through the provision of services) to a third party based on changes in an underlying economic characteristic (such as interest rates or market value) that is related to an asset, a liability or an equity security of the other party.

The Company also has a \$237,000 letter of guarantee outstanding that is due May 5, 2013 as well as a \$133,800US letter of guarantee due May 15, 2013.

Commitments

The Company leases office space under two operating leases that expire September 2013 and October 2017. Future minimum payments due in each of the next four years, and in aggregate, under the operating leases are as follows:

2014	\$ 73,500
2015	48,780
2016	48,780
2017	48,780
	<hr/>
	\$ 219,840

Product warranties

As part of the normal sale of product, the Company provides its customers with standard one-year product warranties and from time to time it sells separately priced extended warranties. The Company currently has parts only warranty obligations that are included with the normal sale of the product. Given the history of nominal warranty parts replacement, the Company has recognized the revenue relating to warranties upon the original product revenue recognition with no obligation included in liabilities.

Note payable	762,000	762,000					
Due to related party - lease payments	219,840	73,500	48,780	48,780	48,780		
Long-term debt	3,285,479	1,129,458	996,938	349,458	345,462	151,657	312,506
	\$ 9,254,365	\$ 1,964,958	\$ 6,032,764	\$ 398,238	\$ 394,242	\$ 151,657	\$ 312,506

19. FINANCIAL INSTRUMENTS

Fair value hierarchy

Financial instruments recorded at fair value on the Statements of Financial Position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

19. FINANCIAL INSTRUMENTS (Continued)

Fair value hierarchy (Continued)

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

Cash is classified as a Level 1 financial instrument. During the year, there has been no significant transfer of amounts between Level 1 and Level 2. There are no items classified in Level 2 or 3.

The Company has exposure to credit risk, market risk and liquidity risk associated with its financial assets and liabilities. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Audit Committee is responsible for developing and monitoring the Company's compliance with risk management policies and procedures. The Audit Committee regularly reports to the Board of Directors on its activities.

The Company's risk management program seeks to minimize potential adverse effects on the Company's financial performance and ultimately shareholder value. The Company manages its risks and risk exposures through a combination of insurance, a system of internal and disclosure controls, sound business practices and on occasion derivative financial instruments.

(a) Credit risk

Credit risk arises from cash held with banks and credit exposure to customers, and others from outstanding trade receivables and unbilled revenue. The objective of managing counterparty credit risk is to prevent losses on financial assets, specifically cash, trade receivables and unbilled revenue. The Company assesses the credit quality of counterparties, taking into account their financial position, past experience and other factors.

Cash

Cash consists of bank deposits. Credit risk associated with cash is minimized substantially by ensuring that these financial assets are invested in highly rated financial institutions. As at March 31, 2013, the Company had cash consisting of cash on hand and deposits with banks of \$145,760 (2012 - \$680,000). During the years ended March 31, 2013 and 2012, the Company did not hold any investments in asset-backed commercial paper.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

19. FINANCIAL INSTRUMENTS (Continued)

Fair value hierarchy (Continued)

(a) Credit risk (Continued)

Accounts receivable

Accounts receivable consists primarily of trade receivables. The Company's credit risk arises from the possibility that a counterparty which owes the Company money is unable or unwilling to meet its obligations in accordance with the terms and conditions in the contracts with the Company, which would result in a financial loss for the Company.

This risk is mitigated through established credit evaluation, approval and monitoring processes intended to mitigate potential credit risks. The carrying amount of trade receivables are reduced through the use of an allowance for doubtful accounts and the amount of the loss is recognized in the statement of comprehensive income (loss). When a receivable balance is considered uncollectible, it is written off against the allowance for trade receivables.

Maximum credit risk is limited to the balance in cash, trade receivables and other receivables and unbilled revenue totalling \$2,921,677 (2012 - \$2,638,290). As of March 31, 2013, trade receivables were comprised of two companies totalling 26% and 15%, respectively (2012 - 18%, 17% and 17%, respectively) of trade receivables. As at March 31, 2013, the Company's ageing of accounts receivable was approximately 93% (2012 - 97%) under sixty days, 6% (2012 - 1%); over 60 - 90 days and 1% (March 31, 2012 - 2%) over 90 days and the allowance for doubtful accounts was \$NIL (2012 - \$NIL).

(b) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the fair value of recognized assets and liabilities or future cash flows or the Company's results of operations.

Interest risk

The Company is financed through loans from related parties and bank loans which bear interest at rates tied to the Canadian bank prime rate. The Company's exposure to interest rate risk relates primarily to variable interest rates on bank and related party debt totalling \$6,167,923. The variable interest rates range from prime less 0.65% to prime plus 2.0%. A 1% change in the bank prime interest rate causes a \$61,678 change in annual interest expense. The Company does not use derivative instruments to reduce its exposure to interest rate fluctuations.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

19. FINANCIAL INSTRUMENTS (Continued)

Fair value hierarchy (Continued)

(b) Market risk (Continued)

Foreign currency risk

There is a risk to the Company's earnings that arises from fluctuations in foreign exchange rates, and the degree of volatility of these rates. The Company's financial results are reported in Canadian dollars. The Company is exposed to foreign exchange fluctuations against the Canadian dollar as sales are primarily denominated in U.S. dollars and other foreign currencies, while expenditures are primarily denominated in Canadian dollars. The Company did not use derivative financial instruments to manage this risk. For the year ended March 31, 2013, the Company had a foreign exchange loss of \$22,614 (2012 - gain of \$14,464). A 10% change in the value of the U.S. dollar against the Canadian dollar would have an approximate foreign exchange gain or loss of \$133,503 and \$206,711 for the fiscal years ended March 31, 2013 and 2012, respectively.

Assets and liabilities denominated in U.S. dollars (expressed in Canadian dollars) are as follows:

	<u>2013</u>	<u>2012</u>
Cash	\$ 209,476	\$ 208,755
Trade receivables	1,014,730	893,866
Unbilled revenue	514,439	24,011
Trade and other payables	(248,958)	(183,131)
Deferred revenue	(163,763)	(75,607)
Note payable	(762,000)	(1,500,000)
Long-term debt	(1,898,955)	(1,435,000)
	<u>\$ (1,335,031)</u>	<u>\$ (2,067,106)</u>

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

19. FINANCIAL INSTRUMENTS (Continued)

Fair value hierarchy (Continued)

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains a positive working capital position. The Company aims to maintain a current ratio, defined as current assets over current liabilities, of at least 1:1.

The Company generally makes bi-monthly payments to vendors. At March 31, 2013, most of the Company's accounts payable were current. The vast majority of accounts payable fall due for payment within forty-five days. Accrued liabilities are generally due after more than one month and in some cases it may not yet be possible to determine the contracted date for payment.

The Company is required to maintain certain financial covenants in connection with its existing banking arrangements (Note 21).

(d) Fair values

The carrying amounts for cash, trade accounts receivable, and accounts payable and accrued liabilities approximate fair value due to the short maturity of these instruments or the terms of the instrument. The carrying amount for the long-term debt approximated fair value as the interest rate was reflective of rates currently available for similar debt.

The fair values of amounts due to and due from related parties are not determinable as comparable arm's length debts are not available.

20. RELATED PARTIES

Key management personnel compensation

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling activities of the entity, directly or indirectly. The key management personnel of the Company are members of the Company's executive management team, which include the CEO, CFO and VP-Mergers and Acquisitions and control approximately 34.4% of the outstanding shares of the Company. Compensation provided to key management is as follows:

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

20. RELATED PARTIES (Continued)

	<u>2013</u>	<u>2012</u>
Short-term employee benefits	\$ 460,000	\$ 460,000
Share-based payments	-	-
	<u>\$ 460,000</u>	<u>\$ 460,000</u>

If terminated for other than just cause, each executive officer is entitled to up to twelve months prior written notice or payment thereof in lieu at the rate in effect at the time of termination.

Related party transactions

During the year ended March 31, 2013, the Company incurred interest expense of \$170,802 (2012 - \$198,302) which is primarily interest on related party balances as described in Notes 9 and 12.

On March 31, 2013 the Company's senior officers agreed to defer payment of consulting fees and salaries payable to August 2014. During fiscal 2013, a portion of these fees and salaries, amounting to \$103,950 (2012 - \$103,950), was paid to the senior officers. At March 31, 2013, these outstanding fees and salaries to senior officers of the Company, who are also majority shareholders of Targa, amounted to \$2,578,846 (2012 - \$2,373,765), plus interest charges of \$813,694 (2012 - \$688,298) for a total payable of \$3,392,540 (2012 - \$3,062,063). These amounts are included in due to related parties - other.

The above related party transactions are measured at their exchange amount, which is the amount agreed to by the parties.

21. CAPITAL MANAGEMENT

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares, purchase and cancel shares previously issued, return capital to shareholders or sell assets to reduce debt. The Company considers the items included in equity as capital, which totals \$1,805,696 (2012 - \$1,432,410) at year-end.

PLAINTREE SYSTEMS INC.
Notes to the Consolidated Financial Statements
years ended March 31, 2013 and March 31, 2012
(in Canadian dollars)

21. CAPITAL MANAGEMENT (Continued)

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year revenue increases with positive increases in earnings before interest, tax, depreciation and amortization. These objectives are met through operational changes to enhance cash flow performance, the evaluation of acquisitions as they relate to the Company's market share and performance, and risk mitigation over exposure.

The Company is subject to various covenants on long-term debt (including debt to tangible net worth, current assets to current liabilities, capital and debt service ratios). The Company is in breach of the debt service ratio covenant to which the bank has provided forbearance and will not demand repayment before April 1, 2014. The Company expects to have met their covenant requirements by March 31, 2014 (Note 9).

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the year ended March 31, 2013 compared to the year ended March 31, 2012.

22. SUBSEQUENT EVENTS

On May 23, 2013 the Company along with its wholly-owned US subsidiary completed the acquisition of a 16,300 sq. ft. manufacturing facility in Pocono Summit, PA. The Company increased its credit facility with its bankers (HSBC Bank USA) and obtained a short-term loan from a related party for the purposes of financing the \$1.1M acquisition. The relocation of Summit Aerospace USA Inc. from its present leased location is expected to be completed by fall 2013.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

PLAINTREE SYSTEMS INC.

For the years ended March 31, 2013 and 2012

Date – July 11, 2013

The following discussion and analysis is the responsibility of management and has been reviewed by the Audit Committee of Plaintiff Systems Inc ("Plaintree" or the "Company") and approved by the Board of Directors of Plaintiff. The Board of Directors carries out its responsibilities for the financial statements and management's discussion and analysis principally through the Audit Committee, which is comprised exclusively of independent directors.

The following discussion of the financial condition, changes in financial condition and results of operations of Plaintiff is for the years ended March 31, 2013 and 2012. Historical results of operations, percentage relationships and any trends that may be inferred there from are not necessarily indicative of the operating results of any future periods. Unless otherwise stated all amounts are in Canadian dollars following the requirements of the International Financial Reporting Standards ("IFRS"). The information contained herein is dated as of July 11, 2013 and is current to that date, unless otherwise stated. Management is responsible for ensuring that processes are in place to provide sufficient knowledge to support the representations made in the annual filings. Our Audit Committee and Board of Directors provide an oversight role with respect to all public financial disclosures by the Company, and have reviewed this MD&A and the accompanying financial statements.

W. David Watson II, President and Chief Executive Officer, and Lynn E. Saunders, Chief Financial Officer, in accordance with National Instrument 52-109 ("NI52-109"), have both certified that they have reviewed the annual financial statements and this MD&A ("the annual Filings") and that, based on their knowledge having exercised reasonable diligence, (a) the annual Filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made with respect to the period covered by the annual filings; and (b) the annual financial statements together with the other financial information included in the annual Filings fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the dates and for the periods presented in the annual Filings.

Investors should be aware that the inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis Disclosure Controls and Procedures and Internal Controls over Financial Reporting as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Caution Regarding Forward Looking Information

This MD&A of the Company contains certain statements that, to the extent not based on historical events, are forward-looking statements based on certain assumptions and reflect Plaintiff's current expectations. Forward-looking statements include, without limitation, statements evaluating market and general economic conditions, and statements regarding growth strategy and future-oriented project revenue, costs and expenditures. Actual results could differ materially from those projected and should not be relied upon as a prediction of future events. A variety of inherent risks, uncertainties and factors, many of which are beyond Plaintiff's control, affect the operations, performance and results of Plaintiff and its business, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. Some of these risks, uncertainties and factors include the impact or unanticipated impact of: companies

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

evaluating Plaintiff's products delaying purchase decisions; current, pending and proposed legislative or regulatory developments in the jurisdictions where Plaintiff operates; change in tax laws; political conditions and developments; intensifying competition from established competitors and new entrants in the industry; technological change; currency value fluctuation; general economic conditions worldwide, including in China; Plaintiff's success in developing and introducing new products and services, expanding existing distribution channels, developing new distribution channels and realizing increased revenue from these channels. This list is not exhaustive of the factors that may affect any of Plaintiff's forward-looking statements. Plaintiff undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the occurrence of unanticipated events, whether as a result of new information, future events or results otherwise. Readers are cautioned not to put undue reliance on forward-looking statements. Readers should also carefully review the risks concerning the business of the Company and the industries in which it operates generally described in the documents filed from time to time with Canadian securities regulatory authorities.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Plaintree Systems Inc. ("Plaintree" or "the Company") was incorporated in Canada pursuant to the Canada Business Corporations Act. The Company operates through two divisions: Electronics and Specialty Structures. The Electronics division consists of the Hypernetics business, the free space optics business and Summit Aerospace USA Inc. The Specialty Structures division consists of the Triodetic business and Arnprior Fire Trucks Corp. Plaintree was historically a designer and manufacturer of wireless connections transmitting data on beams of light versus conventional radio frequency, commonly referred to as free space optics ("FSO"). The Hypernetics business manufactures avionic components for various applications including aircraft antiskid braking, aircraft instrument indicators, solenoids and permanent magnet alternators. The Triodetic business is a design/build manufacturer of steel, aluminum and stainless steel specialty structures such as commercial domes, free form structures, barrel vaults, space frames and industrial dome coverings. Arnprior Fire Trucks Corp. involves the custom build of high-end fire trucks and emergency vehicles to be sold to municipalities. Summit Aerospace USA Inc., a wholly owned US subsidiary of Plaintree, provides precision machining for jet engine components, up to 36 inches in diameter and holding tolerances of 1/1000, to the aerospace and defense markets.

Recent Developments

On March 28, 2012, the Company sold one of its two manufacturing buildings held for sale as it was no longer required after the Company moved to larger facilities in late fiscal 2011. The building was sold for \$470,000 and Plaintree assumed a vendor take-back first mortgage of \$446,509 for a three year term, with interest at prime plus 2% per annum. The second of the two buildings remains available for sale.

On February 7, 2012 the Company announced the completion of its acquisition of the business and assets of Summit Tool Corp. ("Summit Tool") of Pocono Summit, Pennsylvania. Summit Tool has been operating as a value added manufacturer of aerospace engine components for 30 years. The purchase price for the acquisition was US\$3 million, subject to reduction if certain milestones were not met. The Company directly and through its wholly-owned subsidiary Summit Aerospace USA Inc. ("Summit Aerospace"), acquired all of the assets of Summit Tool which consisted of machinery and equipment and intangible assets. In addition, Summit Aerospace entered into a lease arrangement with Summit Tool to continue to use that company's former premises. In May 2013 the Company completed the acquisition of a 16,300 sq. ft. manufacturing facility in Pocono Summit, PA and will relocate its Summit Aerospace business during summer of 2013. All of the former employees of Summit Tool remain employed in the business with Summit Aerospace. Prior to its acquisition by the Company, Summit Tool had been operating as a value added manufacturer of aerospace engine components for over 30 years.

On July 14, 2011, the Board of Directors of the Company approved a reduction to the stated capital account of \$97,844,650 (the "**Stated Capital Reduction**") which was approved by the shareholders of the Company at the Company's Annual General Meeting held on September 15, 2011. The effect of the reduction was to reduce the stated capital and the accumulated deficit of the Company by the same amount. The accumulated deficit of the Company was primarily due to the Company's business carried on prior to the completion of the merger with Hypernetics and Triodetic and was not reflective of the post merger business of the Company.

On May 3, 2011, the Company filed a Form 15F with the United States Securities and Exchange Commission (the "SEC") with the intention of voluntarily terminating its reporting obligations

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

under Section 13(a) and Section 15(d) of the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"). On the filing of the Form 15F, Plaintree's reporting obligations with the SEC under the Exchange Act, including its obligations to file annual reports on Form 20F, was immediately suspended. Plaintree's termination of its reporting obligations under the Exchange Act was made final 90 days after the filing of the Form 15F with the SEC.

The Company's common shares are quoted on the CNSX under symbol "NPT" in Canada.

Control Activities

For all changes to policies and procedures that have been identified, the effectiveness of internal controls over financial reporting and disclosure controls and procedures has been assessed and any required changes have been implemented.

Selected Annual Financial Information

The Company's consolidated financial statements are stated in Canadian dollars and are prepared in accordance with IFRS. The following table sets forth selected financial information from the Company's fiscal 2013 financial statements:

(\$000s, except per share amounts)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Revenues

Revenue

Total product revenue for fiscal 2013 was \$13,790,759 compared to \$12,640,541 in fiscal 2012.

Plaintree has two diversified business divisions: Specialty Structures and Electronics.

Plaintree's Electronics Division revenue increased to \$6,127,101 in fiscal 2013 from \$4,072,801 in fiscal 2012. The increase was attributed to the addition of the Summit Tool business and moderate increases in Hypernetics division. The Company expects growth to continue for this division in fiscal 2014.

Plaintree's Specialty Structures Division revenue remained relatively consistent at \$7,663,658 in fiscal 2013 from \$8,567,740 in fiscal 2012.

Gross Margin

The total gross margin remained consistent year over year at 24%.

Inventory write-downs of \$202,632 and \$273,359 in fiscals 2013 and 2012 are included in the cost of sales.

Operating Expenses

Sales and marketing expenses

Sales and marketing expenses were \$544,527 and \$695,383 in fiscal 2013 and 2012 respectively. These expenses consisted primarily of personnel and related costs associated with the Company's sales and marketing departments, which include sales commissions, advertising, travel, trade shows and other promotional activities. Expenses during fiscal 2012 included business development costs associated with the new businesses of the Company.

Sales and marketing expenses are expected to remain at comparable levels throughout fiscal 2014.

Finance and administration expenses

Finance and administration expenses were \$1,164,260 and \$1,022,400 in fiscals 2013 and 2012 respectively. Finance and administration expenses consist primarily of costs associated with managing the Company's finances, which included financial staff, legal and audit activities. Amortization of intangibles related to the business of Summit Aerospace is the primary reason for the increase in finance and administration expenses.

Finance and administration expenses are expected to remain at comparable levels throughout fiscal 2014.

Research and development expenses

Research and development expenses were \$1,313,805 and \$1,596,797 in fiscals 2013 and 2012 respectively. Research and development expenditures consist primarily of development

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

engineering and personnel expenses. Reduction in personnel expenses and consulting fees during fiscal 2013 from fiscal 2012 levels is the primary reason for the decrease in expenses.

Research and development expenses are expected to increase in fiscal 2014 from fiscal 2013 levels as the Company continues to accept contracts.

Bad debt expenses

The Company recorded bad debts of \$2,377 and \$233,092 in fiscals 2013 and 2012 respectively, and all remain uncollected. The expense that occurred in fiscal 2012 relates primarily to one client's insolvency.

Interest expense

Interest expense consists of interest incurred on bank and related party debt. Interest expenses were \$170,802 and \$198,302 for fiscal 2013 and 2012, respectively. Interest expense increased primarily due to the increase in borrowings for plant equipment and plant leaseholds. The majority of the Company's debt accrues interest at variable rates based on the Company's bank prime lending rate of interest.

Gain (loss) on foreign exchange

The Company reported a (loss) on foreign exchange of \$(22,614) and a gain of \$14,464 in fiscals 2013 and 2012 respectively. The gain/loss on foreign exchange represents the gain/loss, realized or unrealized, of transactions and year end foreign balances that are completed in currencies other than the Company's reporting currency.

Net (loss), Comprehensive (loss) and Net (loss) Attributable to Common Shareholders

Net loss and comprehensive loss for Fiscal 2013 and 2012 was \$(1,092,714) and \$(2,097,833) respectively. Net income attributed to common shareholders is calculated by reducing net income by the \$1,466,000 cumulative yearly dividends that accrue annually on the Class A preferred shares. The cumulative dividends accrue at 8% per annum on the face value of the \$18,325,000 for the Class A preferred shares and as of March 31, 2013, the accrued and unpaid dividends on the Class A preferred shares were \$6,896,500.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Quarterly Results

The following table sets out selected unaudited consolidated financial information for each quarter in fiscal 2013 and fiscal 2012:

Quarters ended

(unaudited, in \$000s except per share data)

	Mar 31	Dec 31	Sept 30	June 30	Mar 31	Dec 31	Sept 30	June 30

Liquidity and Capital Resources

(\$000s)

	<u>2013</u>	<u>2012</u>	<u>Change</u>
Cash	\$ 146	\$ 680	\$ (534)
Working Capital	\$ 739 (i)	\$ 1,419 (i)	\$ (680)

(i) The Company is subject to various covenants on the long-term debt (including debt to tangible net worth, current assets to current liabilities, capital and debt service ratios). The Company is in breach of the debt service ratio and current assets to current liabilities ratio to which the bank has provided forbearance until April 1, 2014, with respect to this breach. IFRS requires that a financial liability be classified as current even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorized for issue. The Company's working capital without this reclassification of bank debt is \$2,894,737 and \$3,367,547 for fiscals 2013 and 2012 respectively.

	<u>2013</u>	<u>2012</u>	<u>Change</u>
<i>Net cash (used in) provided by:</i>			
Operating activities	\$ 834	\$ (354)	\$ 1,118
Investing activities	\$ (330)	\$ 25	\$ (355)
Financing activities	\$ (1,038)	\$ 638	\$ (1,676)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cash

As at March 31, 2013, the Company held \$145,760 in cash, a decrease of \$534,240 from March 31, 2012.

Working Capital

Working capital represents current assets less current liabilities. As at March 31, 2013, the Company had positive working capital of \$738,717 compared to working capital of \$1,418,913 at March 31, 2012 after the bank debt was reclassified as a current liability due to breaches of two bank covenants. The Company is subject to various covenants on the long-term debt (including debt to tangible net worth, current assets to current liabilities, capital and debt service ratios). The Company is in breach of the debt service ratio and the current assets to current liabilities covenants to which the bank has provided forbearance until April 1, 2014. The bank expects the Company to be back in covenant by March 31, 2014. IFRS requires that a financial liability be classified as current even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorized for issue. The Company's working capital without this reclassification of current bank debt is \$2,894,737 and \$3,367,547 for fiscal periods 2013 and 2012, respectively.

Cash provided by (used in) Operating activities

Cash provided by operating activities for fiscal 2013 was \$833,922 representing an increase of \$1,188,356 from net cash used of \$(354,434) in fiscal 2012. Cash provided by operating activities during fiscal 2013 mainly relates to a return to profitability.

Cash (used in) provided by Investing activities

Cash used in investing activities for fiscal 2013 was \$(330,425) representing a decrease of \$355,426 from cash provided of \$25,001 in fiscal 2012. Cash provided in fiscal 2012 was the result of the company disposing of a surplus plant and property.

Cash (used in) provided by Financing activities

Cash used in financing activities for fiscal 2013 was \$(1,037,737) representing a decrease of \$1,675,698 from cash provided of \$637,961 in fiscal 2012. Cash used in financing activities in fiscal 2013 relates primarily to the repayment of bank financing incurred to complete the Summit Tool business and equipment acquisition.

Outlook

Fiscal 2013 concluded with a net income of \$373,286 before adjusting for accrued and unpaid dividends on the Class A preferred shares, which included a write-down on inventory of \$202,632. Continued growth for the Company is expected from Summit Aerospace and Arnprior Fire Trucks Corp in the next several years. The Company has increased their investment into high end, robust and versatile manufacturing equipment throughout all of its divisions. Plaintiff moved to a larger facility in late fiscal 2011 to ensure it had sufficient capacity for growth for its Canadian operations.

There can be no assurances that the Company will achieve the long term operating results required to reduce the bank and related party debt to adequate levels and achieve profitability to

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

meet the obligations to Class A preferred shareholders and provide income and cash flow attributable to common shareholders.

Related Party Transactions

Due from Related Party

Due from related party consists of \$1,510,345 (2012 - \$1,284,665) due from Spotton Corporation, a company controlled by Targa Group Inc. ("Targa"). The balance accrues interest at prime plus 2% and is due from the related party on demand. The \$225,680 change in the balance from fiscal 2012 relates to rent of \$42,000 (2012 - \$42,000) and utilities charges, advances and related interest.

Due to Related Party

	<u>2013</u>	<u>2012</u>
Due to senior officers	\$ 3,392,540	\$ 3,062,063
Dividends payable	60,000	60,000
Due to Targa Group Inc., convertible debentures	247,672	247,672
Due to Tidal Quality Management Inc.	322,370	313,621
Due to Targa Group Inc., line of credit	763,070	932,237
Due to Targa Group Inc., demand loan	66,581	66,581
Due to Targa Group Inc., loan interest	134,813	134,813
	<u>4,987,046</u>	4,816,986
Less: current portion	<u>(60,000)</u>	(60,000)
	<u>\$ 4,927,046</u>	\$ 4,756,986

As at March 31, 2013, a balance of \$3,392,540 (\$2,578,846 principal and \$813,694 interest) remained owing to senior officers of the Company. These amounts are classified as long-term as the parties have agreed not to demand repayment before August 2014.

On July 14, 2011, the board of directors of the Company declared a cash dividend of \$10.91405 per Class A preferred share (\$200,000 in the aggregate) payable on July 22, 2011 to the holders of record at the close of business on July 18, 2011. The Class A preferred shares are held by related parties and are entitled to annual cumulative dividends of 8% on the \$1,000 redemption amount of the Class A preferred share. An amount of \$60,000 (2012 - \$60,000) of the dividend remains outstanding as of March 31, 2013 and is included in trade and other payables.

As at March 31, 2013, a balance of \$247,672 (2012 - \$247,672) of the due to related parties is convertible into common shares of the Company at a rate of \$0.0115 at the option of Targa). The balance is classified as long-term as the related party has agreed not to demand payment before August 2014.

Until March 31, 2013, the Company leased facilities from a company controlled by Targa. Lease arrears, including interest of \$147,396 (2012 - \$138,647) owing to this related party, amounted to

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

\$322,370 (2012 - \$313,621). In 2003, this related party entered into a forbearance agreement with the Company whereby the Company agreed to repay the amounts owing. The forbearance agreement is now in default. The party has agreed not to demand repayment before August 2014 and the amount is classified as long-term.

The Company has a demand loan of up to \$1,800,000 and a revolving line of credit of up to \$1,000,000 with Targa. Under the loan agreements, all amounts advanced to the Company are payable on demand and bear interest at bank prime plus 2%. The Targa Credit Facility is secured by a security interest granted over the assets of the Company. At March 31, 2013, \$600,000, (2012 - \$800,000) remained outstanding on the line of credit with accumulated interest of \$163,070 (2012 - \$132,237) for a balance of \$763,070 (2012 - \$932,237). The balance on the revolving demand loan of \$66,581 consists of interest only. Targa has agreed that it will not demand repayment before August 2014 and, accordingly, the amounts are classified as long-term.

Accumulated interest in the amount of \$134,812 (2012 - \$134,812), on a loan from Targa remains outstanding as of March 31, 2013. The party has agreed not to demand repayment before August 2014 and, accordingly, the amount is classified as long-term.

Facilities

The Company leases a 135,500 sq. /ft. building at 10 Didak Drive in Arnprior, Ontario.

On May 23, 2013 the Company along with its wholly-owned US subsidiary completed the acquisition of a 16,300 sq. ft. manufacturing facility in Pocono Summit, PA. The relocation of Summit Aerospace USA Inc. from its present leased location is expected to be complete by fall 2013.

Other Contracts and Commitments

The following table provides a summary of the Company's obligations outstanding as at March 31, 2013:

Payments due by period

	Total	Current	2015	2016	2017	2018	Thereafter
Due to related parties - convertible debentures	\$ 247,672		\$ 247,672

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Risk Factors Affecting Future Business

The Company has exposure to credit risk, market risk and liquidity risk associated with its financial assets and liabilities. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Audit Committee is responsible for developing and monitoring the Company's compliance with risk management policies and procedures. The Audit Committee regularly reports to the Board of Directors on its activities.

The Company's risk management program seeks to minimize potential adverse effects on the Company's financial performance and ultimately shareholder value. The Company manages its risks and risk exposures through a combination of insurance, a system of internal and disclosure controls, sound business practices and on occasion derivative financial instruments.

Credit risk

Credit risk arises from cash held with banks and credit exposure to customers, and others from outstanding trade receivables and unbilled revenue. The objective of managing counterparty credit risk is to prevent losses on financial assets, specifically cash, trade receivables and unbilled revenue. The Company assesses the credit quality of counterparties, taking into account their financial position, past experience and other factors.

Cash

Cash consists of bank deposits. Credit risk associated with cash is minimized substantially by ensuring that these financial assets are invested in highly rated financial institutions. As at March 31, 2013, the Company had cash consisting of cash on hand and deposits with banks of \$145,760 (March 31, 2012 - \$680,000). During the years ended March 31, 2013 and 2012 the Company did not hold any investments in asset-backed commercial paper.

Accounts receivable

Accounts receivable consists primarily of trade receivables. The Company's credit risk arises from the possibility that a counterparty which owes the Company money is unable or unwilling to meet its obligations in accordance with the terms and conditions in the contracts with the Company, which would result in a financial loss for the Company.

This risk is mitigated through established credit evaluation, approval and monitoring processes intended to mitigate potential credit risks. The carrying amount of trade receivables are reduced through the use of an allowance for doubtful accounts and the amount of the loss is recognized in the statement of comprehensive income (loss). When a receivable balance is considered uncollectible, it is written off against the allowance for trade receivables.

Maximum credit risk is limited to the balance in cash, trade receivables and unbilled revenue totaling \$2,921,677 (2012 - \$2,638,290). As of March 31, 2013, trade receivables were comprised of two companies totaling 26% and 15%, respectively (2012 - 18%, 17% and 17%, respectively) of trade receivables. As at March 31, 2013, the Company's ageing of accounts receivable was approximately 93% (2012 - 97%) under sixty days, 6% (2012 - 1%); over 60 - 90 days and 1% (March 31, 2012 - 2%) over 90 days and the allowance for doubtful accounts was \$NIL (2012 - \$NIL).

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the fair value of recognized assets and liabilities or future cash flows or the Company's results of operations.

Interest risk

The Company is financed through loans from related parties and bank loans which bear interest at rates tied to the Canadian bank prime rate. The Company's exposure to interest rate risk relates primarily to variable interest rates on bank and related party debt totaling \$6,167,923. The variable interest rates range from prime less 0.65% to prime plus 2.0%. A 1% change in the bank prime interest rate causes a \$61,679 change in annual interest expense. The Company does not use derivative instruments to reduce its exposure to interest rate fluctuations.

Foreign currency risk

There is a risk to the Company's earnings that arises from fluctuations in foreign exchange rates, and the degree of volatility of these rates. The Company's financial results are reported in Canadian dollars. The Company is exposed to foreign exchange fluctuations against the Canadian dollar as sales are primarily denominated in U.S. dollars and other foreign currencies, while expenditures are primarily denominated in Canadian dollars. The Company did not use derivative financial instruments to manage this risk. For the year ended March 31, 2013, the Company had a foreign exchange (loss) of \$(22,614) (March 31, 2012 – gain of \$14,464). A 10% change in the value of the U.S. dollar against the Canadian dollar would have an approximate foreign exchange gain or loss of \$133,503 and \$206,709 for the fiscal years ended March 31, 2013 and 2012, respectively.

Assets and liabilities denominated in U.S. dollars (expressed in Canadian dollars) are as follows:

	March 31, 2013	March 31, 2012
Cash	\$ 209,476	\$ 208,755
Trade receivables	1,014,730	893,866
Unbilled revenue	514,439	24,011
Accounts payable and accrued liabilities	(248,958)	(183,131)
Deferred revenue	(163,763)	(75,607)
Note payable	(762,000)	(1,500,000)
Long-term debt	(1,898,955)	(1,435,000)
	\$ (1,335,031)	\$ (2,067,106)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains a positive working capital position. The Company aims to maintain a current ratio, defined as current assets over current liabilities, of at least 1:1.

The Company generally makes bi-monthly payments. At March 31, 2013, most of the Company's accounts payable were current. The vast majority of accounts payable fall due for payment within forty-five days. Accrued liabilities are generally due after more than one month and in some cases it may not yet be possible to determine the contracted date for payment.

The Company is required to maintain certain financial covenants in connection with its existing banking arrangements (Note 19).

Fair values

The carrying amounts for cash, trade accounts receivable, and accounts payable and accrued liabilities approximate fair value due to the short maturity of these instruments or the terms of the instrument. The carrying amount for the long-term debt approximated fair value as the interest rate was reflective of rates currently available for similar debt.

The fair values of amounts due to and due from related parties are not determinable as comparable arm's length debts are not available.

Capital Management

The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares, purchase and cancel shares previously issued, return capital to shareholders or sell assets to reduce debt. The Company considers the items included in the consolidated statement of shareholders' equity as capital, which totals \$1,805,696 (2012 - \$1,432,410) at year-end.

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year revenue increases with positive increases in earnings before interest, tax, depreciation and amortization. These objectives are met through operational changes to enhance cash flow performance, the evaluation of acquisitions as they relate to the Company's market share and performance, and risk mitigation over exposure.

New and Revised IFRS in Issue but not Effective

IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011)

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011).

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

IFRS 10 Consolidated Financial Statements ("IFRS 10") establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation - Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. IFRS 11 Joint Arrangements ("IFRS 11") establishes principles for financial reporting by parties to a joint arrangement. IFRS 11 supersedes current IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities – Non Monetary Contributions by Venturers. IFRS 12 - Disclosure of Interests in Other Entities ("IFRS 12") applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under IFRS 7 Financial Instruments: Disclosures will be extended by IFRS 13 to cover all assets and liabilities within its scope.

IFRS 13 is effective for annual periods beginning on or after 1 January 2013, with earlier application permitted.

Amendments to IFRS 7 and IAS 32 Offsetting Financial Assets and Financial Liabilities and the related disclosures

The amendments to IAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realization and settlement'.

The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments to IFRS 7 are effective for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. The disclosures should be provided retrospectively for all comparative periods. However, the amendments to IAS 32 are not effective until annual periods beginning on or after 1 January 2014, with retrospective application required.

Amendments to IAS 1 Presentation of items of Other Comprehensive Income

The amendments retain the option to present profit or loss and other comprehensive income either in one continuous statement or in two separate but consecutive statements. Items of other comprehensive income are required to be grouped into those that will and will not be subsequently reclassified to profit or loss. Tax on items of other comprehensive income is required to be allocated on the same basis. The measurement and recognition of items of profit or loss and other comprehensive income are not affected by the amendments. The amendments to IAS 1 are effective for financial years beginning on or after January 1, 2012, with earlier

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

application permitted. The Company is evaluating the impact of the amendments to IAS 1 on its financial statements.

Subsequent Event

On May 23, 2013 the Company along with its wholly-owned US subsidiary completed the acquisition of a 16,300 sq. ft. manufacturing facility in Pocono Summit, PA. The Company increased its credit facility with its bankers (HSBC Bank USA) and obtained a short-term loan from a related party for the purposes of financing the \$1.1M acquisition. The relocation of Summit Aerospace USA Inc. from its present leased location is expected to be complete by fall 2013.

Summary of Outstanding Share Data

As at July 11, 2013, the following equity instruments of the Company were issued and outstanding:

Common Shares: 12,925,253

Class A Preferred Shares: * 18,325

* The Class A Preferred shares provide an 8% cumulative dividend based on a value of \$1,000 per share, are redeemable at the option of the Company at any time at \$1,000 per share plus accrued dividends and they are non-voting.

Convertible Debentures:** \$nil principal value

** The Company has issued various tranches of convertible debentures to related parties for total outstanding value at March 31, 2013, of \$247,671 in accrued interest only. The accrued interest is convertible at any time into common shares of the Company at varying conversion rates that were determined at the time of issuance of each tranche. If all the debentures plus accrued interest were converted at the current time, the total number of common shares issued would be 229,935.

Options:*** Options to acquire 560,000 common shares

*** The options, having exercise prices of \$0.12, were granted pursuant to the Company's stock option plan.
