

NEWS RELEASE

Plaintree Systems Inc. announces Third Quarter Fiscal 2019 results.

Arnprior, Ontario, **February 25, 2019** – Plaintree Systems Inc. (**Plaintree, traded on CSE under the symbol NPT**).

Plaintree announced today that it has released its un-audited consolidated financial statements and related management discussions and analysis for the third quarter ending December 31, 2018 as well as cumulative performance year to date for the nine months ending December 31, 2018.

During the three and nine months ended December 31, 2018 of fiscal 2019, Plaintree realized revenues from operations of \$5,121,234 and \$17,357,600 respectively, up from \$4,340,905 and \$12,053,153 for the same periods of fiscal 2018. Net income from operations declined to \$388,169 and \$1,931,410 in the three and nine month period ending December 31, 2018 as compared to net income of \$674,467 and \$1,447,938 or the same periods a year earlier.

“We are very pleased at the continuing strong market for all of Plaintree’s diversified portfolio of products which has allowed us these positive financial results” said David Watson CEO.

“Mining domes account for a very large proportion of Plaintree’s overall revenues and the nature of this market is such that margins are lower than our other product lines. Thus, when we have quarters where revenues are predominately from these domes, we can see a fluctuation in the net income line for the quarter such as we have seen this quarter.

On this basis, the reader will find multi quarter periods to be more representative of performance.”

[About Plaintree Systems Inc.](#)

Plaintree has two diversified product lines consisting of Specialty Structures and Electronics.

The Specialty Structures Division includes the former Triodetic Group with over 40 years of experience, is a design/build manufacturer of steel, aluminum and stainless steel specialty structures such as commercial domes, free form structures, barrel vaults, space frames and industrial dome coverings and Spotton Corporation, a design and manufacturer of high end custom hydraulic and pneumatic valves and cylinders.

The Electronics Division includes the legacy Hypernetics and Summit Aerospace USA Inc. businesses. Hypernetics was established in 1972 and is a manufacturer of avionic components for various applications including aircraft antiskid braking, aircraft instrument indicators, solenoids, high purity valves and permanent magnet alternators. Summit Aerospace USA Inc. provides high precision machining to the aerospace and defense markets. Our facility includes 5 axis CNC precision machining of complex castings and large ring parts such as turbine and assembly shrouds as well as assembly & pressure seals. Summit will support requirements from concept, prototype and throughout production.
