

## **NEWS RELEASE**

### **Plaintree Systems Inc. announces continued strong Second Quarter Fiscal 2019 results.**

Arnprior, Ontario, **November 27, 2018** – Plaintree Systems Inc. (**Plaintree, traded on CSE under the symbol NPT**).

Plaintree announced today that it has released its un-audited consolidated financial statements and related management discussions and analysis for the second quarter ending September 30, 2018 as well as cumulative performance year to date for the six months ending September 30, 2018.

During the three and six months ended September 30, 2018 of fiscal 2019, Plaintree realized revenues of \$7,456,053 and \$12,236,366 respectively, up from \$4,212,319 and \$7,712,248 for the same periods of fiscal 2018. Net income increased to \$1,234,786 and \$1,355,407 in the three and six month period ending September 30, 2018 as compared to net income of \$576,315 and \$929,079 for the same periods a year earlier.

“Needless to say, we are very pleased that our innovation and investment in our companies is continuing to generate strong results. It has been a hurdle to increase production by 58% and yet keep our quality and delivery up to our expected high levels, but the amazing teams at Plaintree were up to the challenge.” said David Watson CEO.

“Despite the investment and effort spent on 9366920 Canada Inc., trading as Madawaska Doors, it has not performed as expected and the Board has determined to cease operations in December 2018.”

[About Plaintree Systems Inc.](#)

**Plaintree** has two diversified product lines consisting of Specialty Structures and Electronics.

The Specialty Structures Division includes the former Triodetic Group with over 40 years of experience, is a design/build manufacturer of steel, aluminum and stainless steel specialty structures such as commercial domes, free form structures, barrel vaults, space frames and industrial dome coverings and Spotton Corporation, a design and manufacturer of high end custom hydraulic and pneumatic valves and cylinders.

The Electronics Division includes the legacy Hypernetics and Summit Aerospace USA Inc. businesses. Hypernetics was established in 1972 and is a manufacturer of avionic components for various applications including aircraft antiskid braking, aircraft instrument indicators, solenoids, high purity valves and permanent magnet alternators. Summit Aerospace USA Inc. provides high precision machining to the aerospace and defense markets. Our facility includes 5 axis CNC precision machining of complex castings and large ring parts such as turbine and assembly shrouds as well as assembly & pressure seals. Summit will support requirements from concept, prototype and throughout production.
