1. DESCRIPTION OF THE BUSINESS

Plaintree Systems Inc. ("Plaintree" or the "Company") was incorporated in Canada under the Canada Business Corporation Act and is publicly traded on the CNSX under "NPT". The Company operates an Electronics division (the Hypernetics business, the free space optics business and Summit Aerospace USA Inc business) and a Specialty Structures division (the Triodetic business and Arnprior Fire Trucks Corp.). Plaintree was historically a designer and manufacturer of wireless connections transmitting data on beams of light versus conventional radio frequency, commonly referred to as free space optics ("FSO"). The Hypernetics business manufactures avionic components for various applications including aircraft antiskid braking, aircraft instrument indicators, solenoids and permanent magnet alternators. The Triodetic business is a design/build manufacturer of steel, aluminium and stainless steel specialty structures such as commercial domes, free form structures, barrel vaults, space frames and industrial dome coverings. On February 6, 2012, Plaintree purchased the assets of Summit Tool Corporation, located in Pocono Summit, Pennsylvania. This company continued in its existing location as Summit Aerospace USA Inc. a wholly-owned subsidiary of Plaintree and specializes in the high end machining of super-alloys for the aircraft and helicopter markets. In May 2013 the Company along with its wholly-owned US subsidiary acquired a 16,300 sq. ft. manufacturing facility in Pocono Summit and expects to relocate from the present leased facilities by fall 2013. The address of the Company's registered office and principal place of business is 10 Didak Drive, Arnprior, Ontario.

2. BASIS OF PRESENTATION

(a) Statement of Compliance

The condensed consolidated unaudited interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and were approved for issue by the Board of Directors on July 11, 2013. These statements should be read in conjunction with the audited financial statements and notes included in the Annual Report for the year ended March 31, 2013.

(b) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis except for share-based compensation, which is measured at fair value. Historical cost is generally based upon the fair value of the consideration given in exchange for assets.

PLAINTREE SYSTEMS INC.
Notes to the condensed Consolidated Interim Statements
for the Quarters ended June 30, 2013 and 2012 (unaudited)
(in Canadian dollars)

(c) Basis of Consolidation

The consolidated financial statements include the accounts of Plaintiff Systems Inc. and its wholly-owned subsidiaries Summit Aerospace USA Inc. and Triodetic Inc. (U.S. companies) and Arnprior Fire Trucks Inc. (Canadian company). Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries align with the policies adopted by the Company. All inter-company transactions have been eliminated.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in preparing these condensed consolidated interim financial statements are unchanged from those disclosed in the Company's 2013 annual consolidated financial statements, and have been applied consistently to the periods presented in these condensed consolidated interim financial statements

New and revised IFRS in issue but not effective

IFRS 9 Financial Instruments

IFRS 9, *Financial Instruments* was issued by the IASB on November 12, 2009 and will replace IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also required a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015 with early adoption permitted. The Company is currently evaluating the impact on its consolidated financial statements.

IFRS 10 Consolidated Financial Statements

On May 12, 2011, the IASB issued IFRS 10, *Consolidated Financial Statements*. IFRS 10 establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more of the other entities. IFRS 10 replaces the consolidated requirements in SIC-12 *Consolidation - Special Purpose Entities* and IAS 27 *Consolidated and Separate Financial Statements* and is effective for annual periods beginning on or after January 1, 2013. Earlier adoption is permitted. The Company is currently evaluating the impact on its consolidated financial statements.

IFRS 11 Joint Arrangements

On May 12, 2011 the IASB issued IFRS 11, *Joint Arrangements*. IFRS 11 provides a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form (as is currently the case). The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities. The Company is currently evaluating the impact on its consolidated financial statements

IFRS 12 Disclosure of Interests in Other Entities

On May 12, 2011, the IASB issued IFRS 12, *Disclosure of Interests in Other Entities*. IFRS 12 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates and unconsolidated structured entities. IFRS 12 is effective for annual periods beginning on or after January 1, 2013. Earlier adoption is permitted. The Company is currently evaluating the impact on its consolidated financial statements.

IFRS 13 Fair Value Measurement

On May 12, 2011, the IASB issued IFRS 13, *Fair Value Measurement*. IFRS 13, which is effective from January 1, 2013, defines fair value, sets out in a single IFRS a framework for measuring fair value and requires disclosures about fair value measurements. IFRS 13 does not determine when an asset, a liability or an entity's own equity instrument is measured at fair value. Rather, the measurement and disclosure requirements of IFRS 13 apply when another IFRS requires or permits the item to be measured at fair value (with limited exceptions). The Company is currently evaluating the impact on its consolidated financial statements

Amendments to IAS 1 Presentation of items of Other Comprehensive Income

The amendments retain the option to present profit or loss and other comprehensive income either in one continuous statement or in two separate but consecutive statements. Items of other comprehensive income are required to be grouped into those that will and will not be subsequently reclassified to profit or loss. Tax on items of other comprehensive income is required to be allocated on the same basis. The measurement and recognition of items of profit or loss and other comprehensive income are not affected by the amendments. The amendments to IAS 1 are effective for financial years beginning on or after January 1, 2012, with earlier application permitted. The Company is evaluating the impact of the amendments to IAS 1 on its consolidated financial statements.

IAS 28 Investments in Associates and Joint Ventures

IAS 28, *Investments in Associated and Joint Ventures* was re-issued by the IASB on May 12, 2011 in order to conform to changes as a result of the issuance of IFRS 10, IFRS 11, and IFRS 12. IAS 28 continues to prescribe the accounting for investments in associates, but is now the only source of guidance describing the application of the equity method. The amended IAS 28 will be applied by all entities that are investors with joint control of, or significant influence over, an investee. The amended version of IAS 28 is effective for financial years beginning on or after January 1, 2013, with earlier application permitted. The Company is evaluating the impact of IAS 28 on its consolidated financial statements.

IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011)

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011).

IFRS 10 Consolidated Financial Statements ("IFRS 10") establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation - Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. IFRS 11 Joint Arrangements ("IFRS 11") establishes principles for financial reporting by parties to a joint arrangement. IFRS 11 supersedes current

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities - Non Monetary Contributions by Venturers. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards.
